Reports came that one of the killed at the late tornado disaster in Kansas, was John Paxton, formerly a citizen of the western part of our county.

Coon Reichley of Green is beginning to colonize voters for the campaign early. His latest addition to the Democratic party arrived last Tuesday.

The Merry go Round on the Market lot, is a source of much entertainment to the little folks and grown people as well. Good order and good manners are enforced.

The many friends of Mr. Darious White will be glad to learn that he is recovering from his long, and serious illness, and it is hoped will soon be able to be out and about again.

Ex-Mayor Heitman of Columbus, and law partner of Judge Friener, was a visitor in Logan last Friday, and received a hearty welcome.

Herr Heitman captivated and captured the grand schemes of Logan.

Col. Welby who was called to Indiana by the serious illness of his sister, Mrs. Stone, returned on Monday. His sister is some better, but not much hope is entertained of her ultimate recovery. She is afflicted with dropsy.

Mrs. Dr. Roney and family are visiting in Toledo, Ohio. Mrs. Roney was invited to attend the wedding of her niece, Miss Nettie Kline, daughter of our former townsman, Adam Kline. They will make quite an extended visit.

Squire A. W. Mank of Swan made the SENTINEL a pleasant and profitable call Monday. He started yesterday for a business trip through Indiana and Illinois and will stop on the road to visit relatives. He expects to be gone several days.

Court was in session last Thursday and Friday. The report of the referee in the Culver will case was read, exceptions were taken by Mr. Culver, and a motion made and argued for further hearing. The court will meet on the 27th and decide the case.

A number of our citizens interested in our Logan Brick Plants, visited the McManis works in Middletown last week. They got out of the town just before the order of quarantine was issued and are safe and sound and happy in escape from infection and detention.

David M. Jones has charge of the Avenue station during Mr. Price's absence. Mr. Jones is an experienced barkeeper and a pleasant gentleman, and those of our people coming to or from the trains, wishing a stimulant, can have it fixed up to a "Queen's taste" by stopping in and seeing Mr. Jones.

Miss Kate Bowley of our town, graduated at the Wooster University with the highest honors of her class. She is the first lady to win the highest honors of the graduating class, and has been selected to deliver the annual salutatory. Miss Bowley has the congratulations of her many friends in Logan.

Mr. Dal Houston of New York city, on returning from a business trip out west, stopped over for a few days last week in Logan, and met a hearty welcome from his many long time friends. Dal is well, is doing well, and we are glad to know that in him is another gentleman of Ohio and New York, a worthy member of that combination.

The Reform Farm at Lancaster will furnish the floral decorations for the Opera House, Commencement-evening. For this pleasant and acceptable courtesy, we may thank our members of the Board, Mr. John E. White. The flowers which the state provides for the constant delight of the incorrigible boys, should be tendered on Commencement night to the good boy and girl graduates of the schools of the neighborhood.

Mr. J. C. Howe, son of Dr. Howe, the famous historian was in our city on Tuesday, and secured as agent for the sale of the history, Rev. Alexander of our town, a gentleman of high character, and educational attainments. The work should be in every family of our county. It treats of the log cabin days, the incidents and adventures of pioneer life in Hocking and contrasts with that period, the condition of things of to-day; giving biographical notes, of men of the past and present who had an influence among their fellows.

Mr. Sam Law, marshal of Somerset, found guilty of manslaughter for the fatal shooting of Dick, in Somerset last fall, and sentenced to the penitentiary for two years, was in Logan last Friday to see his attorney Gen. Grosvenor, and secure if possible an extension on his bond, the limit having expired. The case was taken to the circuit court on appeal. Law was allowed his liberty under bond pending the decision of the circuit court. This court having affirmed Judge Huffman's decision, there is nothing left for the officers, but to take Law to the penitentiary. An effort will be made at once to secure his pardon.

Mr. Franz Burrell and his mother who have been visiting relatives in our town for the past week have gone to Nelsonville where other friends are awaiting their arrival. If Frank would stay here but a short time, Logan would have a first class band. His presence here the last few days, started his old associates into the feeling of a reunion and a musical reorganization.

Our graduating class this year is making every preparation possible to exceed in excellence all previous school record of attainment. The last year's class achievement was noted and made famous through the state as being the "Governor's class." Gov. Campbell doing them the honor to conduct the exercises. The class this year is not to be out done, and will have equal honor in Gov. McKinley, who will be their guest, and preside on the occasion. The Logan schools in merit are foremost in our state, and in envying the Governors have become famous. It is not a "Governors fight" as men would say it, between the class of 91 and 92, but it is gallant rivalry between two classes of graduates who are alike working to have as their honored guests on Commencement Day, the two great Governors of the great state of Ohio.

McKay has had another stroke of postcard. His first attack on rhyming with "Colonel" nearly killed him. This which he has just emitted is likely to be his last. It is a parody.

"Was early in the month of June when all green buds are swelling, two little McKay, nice little ones lay, For the last of Tommy Allen."

THE 14th. REGIMENT ENCAMPMENT.

We can have it in Logan.

The state encampment grounds at Newark are not in condition to be used this year and the consequences are the state troops are compelled to hold encampment at such places as the officers of the regiment may select. Logan is one of the most accessible places for the encampment of the 14th regiment, the crack regiment of the state. The regiment number about eight hundred men. The period of encampment lasts several weeks. It is a great attraction and brings people, parties, excursions from all the neighboring towns. We are informed that not less than ten thousand visitors from abroad are attracted to the town where the encampment is held. Now to the business point. Eight hundred men require lots of food—bread, meat, vegetables, fruit, etc. The visitors require food, shelter, refreshments and many things the business men have for sale. Luncheon offered a thousand dollars, Nelsonville as much in the way of bonus or subsidy to the state to secure it. Logan is the more desirable point. We can secure it for possibly one half that sum. Will we bid for it? Will live business men of Logan give five hundred dollars and make five thousand by the investment. The encampment will be held some time after harvest. The winter market will not be in Logan soon. Will our business men come together, talk the matter over and be prepared to secure it once this great convention of our citizen soldiers?

We have not less than fifty business men in our town and a hundred farmers around, who are directly interested in this body of nearly one thousand hearty eaters. The drift will be a reminiscence to the old veterans, an attraction to the ladies, and a lesson of deep import to the men grown since the war and the boys coming on. Say we come together and have the Encampment.

Last night Messrs W. P. Price and N. Slater called on a number of our business men, soliciting a subscription. The first ten men requested to subscribe, give \$250. We safely say the amount required, \$500.00, is secured. Now let the mayor or some proper authority appoint the proper committees for the reception and entertainment, Logan should extend on this occasion. "There is life in the old land yet."

Important Meeting of the State Board of Health in Columbus Saturday—Radical Measures Adopted.

[From the Ohio State Journal, June 6th.] A special meeting of the State Board of Health was held in Columbus Saturday to consider measures to prevent the spread of smallpox from infected districts along the Ohio river. There were present Dr. Hoover, Wise, Miller and Conklin, and Dr. Hoover was elected president pro tem.

Dr. Probst, secretary, who had just returned from Pomeroy, made a report of his investigation. Official reports up to the evening of June 2, show smallpox present.

In Minersville, Pomeroy and Middleport houses containing the diseases are strictly guarded night and day; most of those who have been exposed have been vaccinated. Public vaccinations have been appointed and free vaccination offered all who are unable to pay for it. The case in Gallipolis was removed to the pest house last Thursday, and general vaccination is being carried out. Nearly all the towns along the river from Ravenswood to Gallipolis have been quarantined against each other and business is almost at a standstill. The character of the disease so far as has been comparatively mild, one death having occurred in Pomeroy and one in Middleport. The nature of the disease of which the man in Mason City died was not recognized and his body was disinterred and taken from Mason City to East Letart, W. Va. Here, in order that he might be buried with a proper respect to the law, the county was opened and a number of people exposed to the disease, and many of them have since taken down.

Rigid measures to prevent further spread of the disease will be enforced by the Ohio State Board of Health, and Dr. Probst will leave for the infected districts today, where he will remain until the epidemic is fully under control.

The secretary of the West Virginia board of health will meet Dr. Probst in Pomeroy and interstate regulations will be agreed upon. Quarantine will be tightest when necessary, but needed restrictions on travel and traffic will be removed.

The following quarantine regulations were adopted and will be put in force at once:

First—A medical inspector appointed by the State Board of Health shall attend at the railway stations and steamboat wharves at Pomeroy, Middleport and Gallipolis, a reasonable time prior to the departure of every train or steambote.

Second—He shall permit only such person or persons to leave by train or steamer as can furnish satisfactory evidence of freedom from the contagion of smallpox, and of not having been exposed thereto, and shall issue a certificate to that effect signed by himself, which shall be presented to the conductor or captain of the train or steamer which each person takes passage.

Third—He shall not permit the shipment of household goods, express matter, freight or other material to be shipped as are satisfactorily guaranteed to be free from the contagion of smallpox.

Fourth—All trainmen, freight handlers and all officers and employees of the railway stations and steamboat wharves at Pomeroy, Middleport or Gallipolis shall present satisfactory evidence of recent vaccination or be vaccinated.

Fifth—It shall be the duty of the health authorities of Pomeroy, Middleport and Gallipolis to assist the medical inspectors in enforcing the above rules.

The secretary was authorized to employ as many medical inspectors as might be required to enforce the above regulations.

A notice is being sent to all boards of health in the state advising that all unvaccinated persons, and all who have not recently been vaccinated, should have a dose of vaccine and that board of health should enforce this measure as fully as possible.

The State Board of Health will supply vaccine to all persons who are known to have been exposed to the disease.

VACCINATE.

The Logan Board of Health has ordered general vaccination.

The apprehension of the Smallpox scourge justifies this order. It is not a matter of argument. The law imposes vaccination. The Board of Health has the most arbitrary powers. All other authority is compelled to yield to it, when public health is imperiled. The law excludes children from school if not vaccinated. The law gives the Board of Health authority to quarantine any family, any person who has been exposed or who upon an order, does not vaccinate. The State Board of Health controls the village and city Boards.

The State Board has ordered vaccination and commands the city Boards to enforce the order. It is not a matter of dispute now or discussion as to whether or not we should vaccinate. The order is issued. Those not able to pay the cost, will be vaccinated free.

We hope our citizens will unite with the Board in taking every precaution to prevent the dreaded contagion.

Logan had a scourge within our yet fresh recollection. It cost us in cash not less than ten thousand dollars; but in the deaths we sustained a loss irreparable.

All good citizens will cheerfully comply with the of the Board. Those who disregard the order made for the public good, will be compelled to yield compliance.

Let us join hand in hand, neighbor with neighbor, and all give help and encouragement of the officers, aiming to prevent an awful calamity to our town.

Blown Up.

One of the first four kilns of the Grand Erie Clay company's works one half mile north of town on the Strat-ville branch exploded Sunday night about eight o'clock, during the heavy thunder storm.

The cause advanced as to how it happened is that the heavy rain fall and the dampness of the ground on which the kiln stood caused a vapor to collect on the inside. The structure not having a sufficient draught or vent to carry off the vapor caused the accident. This company's works only started last week and this will be quite a heavy loss. Several well-burrows standing near the kiln were smashed, but no one hurt. Loss about \$1000.

The above notice of an accident from Tuesday's Journal, is calculated, although not intended, to injure the new enterprise, just getting on its feet.

The kiln had been burned, and the outside encasing iron band or clasp, near the crown of the kiln, was heated to an intense degree. The high wind accompanying the storm dashed suddenly the sheets of rain upon the hot iron band, causing it to suddenly shrink, crushing in the enclosed crown of the kiln, as the heated tire suddenly cooled, crushes the wagon wheel. The bricks in the summit of the kiln were disarranged, and some supports gave way. The injury will soon be repaired. The damages amount to, perhaps, one hundred dollars.

How's History of Ohio.

Rev. Alexander of our town has taken the agency for the sale of How's History of Ohio, in this county. This is the most popular publication ever presented to the people of our state. It is authority. The new publication contains all of the former history published forty years ago, and the many events of importance that have occurred up to the present time. The work is sold only by subscription.

ROBBERY CORP-ER.

T. N. King and B. J. A. Victim of South-Side Robbers.

St. Louis, May 9.—A big sensation was created here Monday by the discovery that the bodies of all the South-Side victims (ten in number) killed in the recent accident some time ago had been robbed. The relatives had kept the bodies quiet but now have good evidence. The aggregate amount in money taken from the mangled corpses before assistance arrived, is estimated at three hundred and fifty dollars besides valuables. The friends of the deceased worked up clues without the aid of the police who are now investigating.

Very-excellent authority says: "It is a fact that but for the apple, the pear and the plum, taken when ripe without sugar, diminish the acidity of the stomach rather than provoke it. The vegetable acids and juices are converted into lactic acid, which tends to correct acidity. A good ripe apple, raw, is one of the easiest of vegetable substances for digestion to deal with, the whole process of stomach being complete in thirty minutes." In the French hospitals an apple-poultice is applied to inflamed eyes; it is probable that such fruits taken as food also serve as layers of inflammation in the stomach and other alimentary organs.
